U.S. CONSTITUTION TUTOR™

Whether you are a high school, junior high or college student . . . a teacher, future citizen or just interested in a more thorough understanding of the U.S. Constitution, this tutorial will help you increase your knowledge and your test score.

You can study on the beginner, intermediate or advanced level. The U.S. Constitution Tutor even helps you determine where you should begin by offering you a diagnostic test mode.

Later, you can switch to the instruction mode where you'll not only get correct answers, but complete explanations. So you're sure to understand *why* your answer was right or wrong.

However, you may want to choose incorrect answers on purpose. That helps you understand why certain answers that may seem correct really are not.

U.S. Constitution Tutor is effective on an individual basis, or in small study groups. Group use stimulates thinking, discussion, and enthusiasm.

The author of U.S. Constitution Tutor, Myrna Helfand, is a veteran of over 12 years public school teaching and holds an M.A. in U.S. History. Let her help you improve your score!
